Zeros of Zeta Functions and the Riemann Hypothesis

Anders Sodergren

Member, School of Mathematics

Date & Time: Fri, 04/12/2013 - 18:00 - 19:30

Location: Dilworth Room

Rooms: Dilworth Room - Rear

Rooms: Dilworth Room

In this talk I will present some old and new results on zeros of zeta functions. In particular, I will discuss the at first sight shocking result that there are plenty of zeta functions for which the Riemann hypothesis is false.
