

Princeton Library

The Institute Library and Computing staff are pleased to announce streamlined web access to Princeton University Library resources. The Princeton University Web Gateway Project allows direct access on the Institute campus to web-based library resources available through Princeton University, without having to go through a special portal.

This enhancement seamlessly provides access, for example you may now search in the Princeton online catalog and go directly to resources through <http://catalog.princeton.edu> or simply use their resources page <http://library.princeton.edu/catalogs/articles.php> to find what you want.

If you are accessing from off campus, login through: <http://www.ias.edu/pul> . For more information, consult <http://library.ias.edu/remote-access>.

If you have any questions, comments or concerns, please feel free to contact the [Institute libraries](#) or the [Help Desk](#).
