### [Workshop on Non-equilibrium Dynamics and Random Matrices](#)

2013-2014

**November 4-8, 2013**

This workshop is part of the topical program "Non-equilibrium Dynamics and Random Matrices" which will take place during the 2013-2014 academic year at the Institute for Advanced Study.

### [Workshop on Symplectic Dynamics II](#)

2011-2012

**March 12-16, 2012**

This workshop is part of the topical program "Symplectic Dynamics" which will take place during the academic year 2011-2012 at the Institute for Advanced Study. The workshop will focus on fluid dynamics and infinite-dimensional Hamiltonian systems and intends to foster interactions between mathematicians working in dynamical systems and symplectic geometers. This seems timely in view of the significant advances in both fields and very promising results at the interface between both fields.
